DD/R - Charter - Organization Minutes of Staff Meeting

Dr. Scoville had gone over with the ExDir (Kirkpatrick) proposed Agency notice concerning DD/R functions: As written the notice gave DD/R responsibility for a) all TSD R&D; b) all special projects of DPD; c) all ELINT activities; and d) establishing an S&T Career Service with DD/R as chairman and including all S&T personnel in the Agency.

Staff Meeting Minutes 19 April 1962

Dr. Scoville said the Agency Notice assigning Special Projects of DPD to the DD/R had been recalled due to faulty drafting. No progress had been made between Messrs. Helms and Cunningham in delineating the division between those specific positions to be assigned to DD/R and those to DD/P from DPD. He will call Mr. Helms and attempt to re-open the subject.

SMM

15 June 1962

With ESPD of OSI (Geo Miller's office) transferring to DD/R effective 1 July the problem of providing a support staff for Mr. Miller's function developed. It was decided to request the establishment of a support staff but to lean on DPD for support meanwhile.

Decision was made to rename the DPD Special Projects office which was transferred to DD/R the Office of Special Activities (OSA). The name for Mr. Miller's ELINT staff did not yet have an approved name.
